

The solution that increases sales, optimizes operations, and protects your transportation business.

For more than 25 years, helping over 70 transportation companies in the **United States, Mexico, and Peru** sell more, better control their operations, and deliver a better experience to their passengers.

What problems do we solve?

Many transportation companies face daily challenges such as:

- ⊗ Long lines at ticket offices.
- ⊗ Manual errors.
- ⊗ Lack of control over cash.
- ⊗ Internal fraud.
- ⊗ Scattered information.
- ⊗ Low sales over the Internet.
- ⊗ Slow processes.
- ⊗ Low bus occupancy.
- ⊗ Difficulty managing multiple offices or branches.

With QuatroBus, you will get:

- ✓ More sales.
- ✓ Greater control.
- ✓ Fast and centralized operations.
- ✓ Information in real time.
- ✓ Smarter decisions.

Benefits

Increase your sales:

Sell from the counter, online, and mobile devices, expand your sales channels, and reach more passengers.

Reduce operating costs:

Automate processes, reduce errors, and improve the productivity of your team.

Control your operations in real time:

Monitor sales, revenue, occupancy, offices, and key performance indicators from a single platform.

Protect your information:

Back up your operations with automatic security and permanent data protection.

Sell 24/7:

Your business keeps selling even when offices are closed.
Less paperwork, more full buses.

Everything you need to manage a transportation business.

01 Ticket Sales

Sell at the counter, online, and on mobile devices, with electronic ticketing and trip scheduling.

02 Cargo Management

Record, control, and track shipments, packages, and consignments with pricing and traceability management.

03 Fleet Management

Full control from registration to boarding, including weight, excess baggage, and tagging.

04 Electronic Invoicing

Issuance, consultation, and validation of fully integrated electronic invoices.

05 Administrative Management

Control of offices, terminals, users, roles, routes, fares, schedules, loyalty programs, and multi-company management.

06 Reporting & Analytics

Real-time information on sales, revenue, occupancy, and key indicators for better decision-making.
